Gforce Electric Bike & Scooter
Chamblee GA.
770-457-7082

11/05/08

As gasoline prices continue to oscillate, the financial impact on Students living on Campus is sometimes insurmountable. Atlanta merchant is providing an easy and affordable solution to the cost of commuting. Students are well aware of the adverse affects of fossil fuels on our environment yet are bound by these vehicles for transport to work and class. Electric Bikes address these pressing issues while the cost of operation is pennies a day.

Atlanta has a store that sells Electric Power Assisted Bicycles!

Electric Bicycles address the following issues for Atlanta Students living on Campus:

- Impact of gasoline prices on students limited budget.
- Parking and traffic gridlock typical of Atlanta.
- Living greener and contributing to the cause of climate change.
- Relatively inexpensive to other transportation alternatives.
- Virtually Pennies per day to operate and recharge.
- Does not require major fitness ability yet also allows exercise if one chooses to pedal. These are Hybrid Bikes.

Providing a wide variety of exclusively electric bikes and immediately available at our convenient location in Chamblee Georgia. We represent the leader in Electric Bikes that provides over a decade of innovation and service throughout the United States.
